OVER 1.2 MILLION JOBS MADE MORE ACCESSIBLE THIS YEAR

"We have worked very closely with BITC over the years to develop our Wellbeing strategy. The development of a Wellbeing Champions network was the natural next step for us. Our Wellbeing Advisory team provided guidance and support all the way through, from creating a business case to holding our first network meeting. The materials and supporting documents were easy to understand and the workshop provided our team the opportunity to discuss lots of different issues in a safe and supportive environment. This gave us the ideas and structure to create our own network with greater confidence.

We would not be as far ahead as we are without the support of BITC and specifically our Wellbeing Advisory team."

OUR NETWORK FOR CHANGE

“

The value of the Business in the Community network is that we get to connect with other businesses, share some of the great things we're doing, learn from each other, help us amplify our voice and do even more good together.

”

Business in the Community
Network

“

BITC helps my organisation drive change by bringing together opportunity with aspiration. There's a huge amount of goodwill and desire to do things, but working out the most effective way to deploy that energy, that enthusiasm, BITC is fantastic in that.

”

“

Working with BITC, I have seen the challenges so many are struggling to overcome across education, skills and social mobility. I believe that by working together, we can break down these barriers and create positive, long-lasting change.

”

Business in the Community is a national network of over 1000 businesses, charities and social enterprises working together to drive positive change across education, skills and social mobility. We are currently looking for more businesses to join our network and we would love to hear from you if you are interested in becoming a member.
